Re: Response to Self-Imposed Moratorium for flow to manholes A 39 and A 43.
NPDES Permit# TN0025038
Manchester STP
Manchester, Coffee County, Tennessee

To whom it may concern:

On April 30th 2024, the City of Manchester received a letter from TDEC informing us that we shall enforce a self-imposed moratorium on connections to Manchester's wastewater collection system that ultimately flow to A 39 and A 43. Additionally, TDEC is requiring the City of Manchester to inform "the Division" in writing of the process to be implemented to enforce the moratorium within 30 days.

Process to enforce the self-imposed moratorium: The City of Manchester is not selling any new taps above the location of chronic manholes. The City of Manchester is not providing building permits above the location of chronic manholes.

The City of Manchester takes these issues seriously and is dedicated to investigating and correcting them.

If there are any questions or concerns regarding this response, please contact me at (931) 247-5138 or by email at Ahaithcote@cityofmanchestertn.com.

Sincerely,

Austin Haithcote
